INTERNATIONAL PRELIMINATION REPOR	NTERNATIONAL PRELIMIN	N. EXAMINATION REPORT
-----------------------------------	-----------------------	-----------------------

International application No.	
PCT/US02/30	

ī.	Basis of the report	
1.	With regard to the elements of the international application:*	
	the international application as originally filed.	
	the description:	١
	pages 1-8 as originally filed	١
	pages NONE , filed with the demand pages NONE , filed with the letter of	١
	the claims:	
	pages 9-11 , as originally filed	l
	pages NONE , as amended (together with any statement) under Article 19	
	pages NONE , filed with the demand	
	pages NONE, filed with the letter of	
	the drawings:	1
	pages 1 , as originally filed pages NONE , filed with the demand	1
	pages NONE , filed with the letter of	1
	the sequence listing part of the description:	
	pages NONE , as originally filed	
	pages NONE, filed with the demand pages NONE, filed with the letter of	
2	with regard to the language, all the elements marked above were available or furnished to this Authority in the	
	language in which the international application was filed, unless otherwise indicated under this item.	
	These elements were available or furnished to this Authority in the following language which is:	١
	the language of a translation furnished for the purposes of international search (under Rule23.1(b)).	١
	the language of publication of the international application (under Rule 48.3(b)).	
	the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).	
3	 With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing: 	
ļ	contained in the international application in printed form.	-
	filed together with the international application in computer readable form.	١
	furnished subsequently to this Authority in written form.	Ì
	furnished subsequently to this Authority in computer readable form.	١
	The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.	
	The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.	ıg
	4. The amendments have resulted in the cancellation of:	
١	the description, pages NONE	
Ĭ	the claims, Nos. NONE	
	the drawings, sheets/fig NONE This report has been established as if (some of) the amendments had not been made, since they have been considered to go	
	5. This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).** * Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to an invitation under Article 14 are referred to the receiving Office in response to the receiving Office in response to the receiving Office in response to the receiving Of

YES

NO

v.	Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability
	citations and explanations supporting such statement

1. STATEMENT Novelty (N) Claims 2, 4, 11, 12 YES Claims 1, 3, 5-10, 13, 14 NO Inventive Step (IS) Claims 2, 4, 11, 12 YES Claims 1, 3, 5-10, 13, 14 NO

Claims 1-14

Claims NONE

2. CITATIONS AND EXPLANATIONS

Industrial Applicability (IA)

Claims 1, 3, 6-9, and 13 lack novelty under PCT Article 33(2) as being anticipated by Den et al (4227041).

Den teaches a method of making an elevator belt having limited stretch comprising aligning plurality of synthetic cords, tensioning, and applying jacket, as well as the cord for use in an elevator. Straightening is considered tensioning and jacket applied to cord has polymer makeup.

Claims 1, 3, 5-10, 13, and 14 lack novelty under PCT Article 33(2) as being anticipated by Coleman et al (4445593).

Coleman teaches a method of making an elevator belt having limited stretch comprising aligning plurality of synthetic cords, tensioning, and applying jacket, as well as the cord for use in an elevator. Straightening is considered tensioning and jacket applied to is urethane.

Claims 1-14 meet the criteria set out in PCT Article 33(4), and thus meet industrial applicability because the subject matter claimed can be made or used in industry.
